

Mobile fence (site fence) Instructions for assembly and use

Schake mobile fencing is used to temporarily enclose, cordon off or secure any location. It is part of the construction site equipment. This fence is also used in the event sector to secure venues.

General information:

All components must be visually inspected before use. Only flawless parts may be used. These instructions for assembly and use are the basis for proper assembly. The accident prevention regulations must be observed!

Assembly

The correct stand element must be selected at the installation site depending on the substrate. When using base elements (concrete or recycled), these must be positioned at right angles to the construction fence panel. The fence elements must then be connected using a hook/eyelet system or a connecting clip (not included). Additional accessories can be used to further increase stability: Support strut and anti-lift device.

Attention: Attaching tarpaulins or advertising increases the area exposed to wind! The installer must provide the appropriate evidence and ensure safety.

Accessories:

Article:	Part-no.	Weight:
Concrete base	3F100	36kg
Recycling foot	3F110	20kg
Recycling foot	3F111	20kg
Recycling foot	3F112	24kg
Recycling foot	3F113	26kg
Recycling foot	3F110L	16kg
Mobile fence stand	3B150	28kg
Mobile fence plate	3B151	13kg
Dowel plate	3B152	2kg
Impact bar	3B153	3kg

Connecting clamp

Connecting clamp	3VB10	0.3kg
Connecting clamp	3VB10L	0.2kg
Connecting clamp	3VB10V	0.5kg
Quick connector	33328	0.1kg

Safety connecting clamps

Connecting clamp	3VB10S	0.5kg
Connecting clamp	3VB10SV	0.5kg

High security connecting clamp

Connecting clamp	3VB10HV	0.5kg

Tool:

Special tool f. 3VB10S+SV	3VB12	0.1kg
Special tool f. 3VB10HV	3VB11	0.1kg

Gate accessories:

Site fence lock	3B1213	2kg
Track roller	3R116	1.5kg
Anti-lift device Swing	3B155	0.5kg
gate ring Construction	3B116	0.6kg
fence hinge	3B115	1kg
Construction fence hinge	3B115-1	1kg

Sicherheit

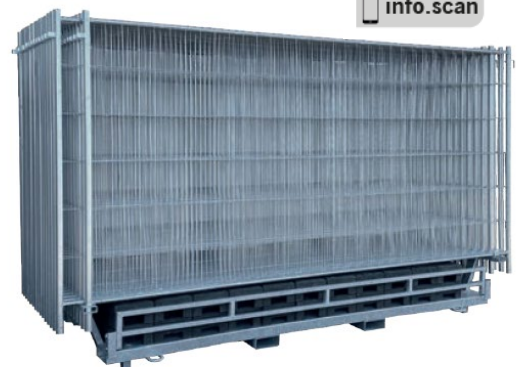

Barbed wire	1.7mm	3B156-4	12.5kg/Rolle
Barbed wire	2.5mm	3B156-5	20.5kg/Rolle
Binding wire	2.0mm	3B156-6	5.0kg/Rolle
Climb-over protection		3B156	0.8kg

Transport und Lagermöglichkeit

Artikel: _____ Art.Nr. _____

Combi pallet	3B211K
Transport traverse for 25 Fences	3B210
Transport traverse for 29 Fences	3B211
Transport tray for Small parts	3B211-W
Transport traverse for 30 Feets	3B215
Transport box for Feets	3B231
Twin traverse for 30 Fences and Feets	3B212T
Twin traverse for 15 Fences and Feets	3B212T-15
Crate for attaching to twin traverse	3B212T-W
Transport traverse for flat storage	3B209FG
Transport traverse for flat storage	3B209FK

Skills:

- Different thicknesses and weight classes
- Flexible to use
- simple and quick assembly
